Backend

Node.js, MongoDB, Express, Django

PROJECTS

Portfolio Website

– It is implemented in React.Js. I've made this for showcasing my personal works.

Crypto Dashboard

– I've made it using HTML, CSS and JavaScript. It is fully responsive and has some features like SideBar Menu Toggle and Theme Customization

Educational Coaching Centre

– Made a website for a coaching centre in my locality

Social Media Web Application

– this web application contains theme background customization, Sidebar menu toggle, font-size customization, theme color customization
